

23rd December 2019

To whom it may concern,

I am very pleased to announce a name change for International Explosives Equipment Pty Ltd.

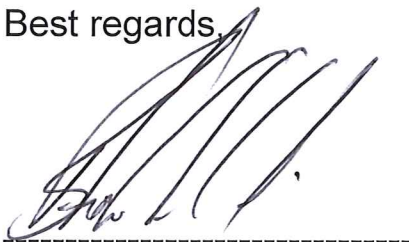

After 30 years servicing the Explosives industry International Explosives Equipment Pty Ltd is being rebranded as IEE Global Pty Ltd.

The new name is a marketing decision to rebrand IEE in the global market place as we continue to expand into new world markets.

The new name takes effect immediately and the business retains its ABN number and the existing corporate structure remains in place. IEE will continue to operate from the Headquarters in Perth with the satellite facility in New South Wales servicing the Hunter Valley and the East Coast as required.

If you have any questions regarding the rebranding please email them to Administrator at rebrand@iee-global.com

Best regards,

Brian Schofield
OPERATIONS MANAGER
